

“The biggest mistake we see is companies thinking they need a grand AI strategy. Start with one or two projects that create clear value.”

[Andrew Ng, cofounder & head of Google Brain]

AI Enablement Workshop

From Hype to Impact: AI That Delivers

Why Our Workshop Matters

AI adoption is progressing in insurance and banking, yet only a minority have operationalized it at scale. The key is to identify the right use cases, align them with strategy, and execute them. Proven results show what’s possible when it’s done right:

50%

Cost Savings

BCG

2.4x

Productivity Boost

Accenture

40%

of Manual Work Automated

McKinsey

Workshop Outcomes

Decision basis for your AI foundation (LLM selection, hosting, and operating model)
